

088

Antistatic lint free glove

The antistatic 088 glove is designed to repel dust and protect products being handled by dissipating static electricity.

The seamless elasticated knit provides comfort and dexterity, while the extended cuff provides additional protection to the wrist area.

Suitable for industrial washing the glove can be laundered to extend product life span.

Features & Benefits

- Fully anti-static and tested according to EN1149-3:2004 Induction decay time
- Extended 15cm cuff for added protection
- Silicone free
- Manufactured from continuous filament materials to minimise lint
- Ambidextrous

Applications / Industries

- Pre and post painting areas
- Electronic manufacturing
